Testimonials from MCHS students who have taken AP U.S. History:

- “APUSH is a great class for those who either love history or those who are up for a challenge. This is a fairly demanding course but a very worthwhile one. Along with learning a lot of very interesting things about our country's history, you get to see connections to the past and present you wouldn't have thought about before this class.”
- “Taking APUSH is easily one of my favorite classes I have taken in High School. That is because it not only engages me to try harder classes but it helps with study habits for other classes and in general.”
- “It gives you the opportunity to learn something about history more in depth. It also prepares you for any level of difficulty a class may bring you in the future, and that can work in your favor in college. It also opens your eyes to parts of your country's history you may have not known anything about. On top of all of that, it happens to be my favorite class that I have. I have the most fun and am most involved in my AP US History class.”
- “To be honest, I have never really liked history until I took this class. This class is totally worth the effort, and it's usually a smaller class so you'll get super close with your classmates.”
